

# GREEN COATINGS, SUSTAINABLE FUTURE

Enrich Lives with Happiness

Kansai Paint proudly introduces our Green Product Series ,  
a next-generation coating range designed to promote sustainability,  
enhance well-being, and protect long-term building value.

# Our Commitment to a Sustainable Future

At Kansai Paint, we go beyond aesthetics and protection. Our green coating solutions are engineered to reduce environmental impact, improve indoor air quality, and contribute to green building certifications.

## **VOC-FREE**

Improves indoor air quality

## **LOW ODOUR**

Safer, more pleasant application

## **APEO-FREE**

Free from environmentally toxic surfactants

## **FORMALDEHYDE-FREE**

No harmful emissions

## **NO ADDED LEAD, MERCURY**

Compliant with international green standards

### Ideal For:

- Green-certified developments
- Government and institutional buildings
- Healthcare, education, and residential projects
- Eco-conscious renovations and new builds

Kansai Paint:

Protecting Your Assets. Sustaining Your Future.

# ALES SHIQUY

## Interior & Exterior

**MODERN INNOVATION IN TRADITIONAL & NATURAL JAPANESE LIME PLASTER.**

A reinterpretation of Japan's traditional lime plaster, ALES SHIQUY delivers timeless aesthetics with modern functionality. Crafted from slaked lime, this natural, breathable coating offers built-in wellness benefits for healthier, longer-lasting spaces.

- Antibacterial & antiviral properties
- Breathable, alkaline, and durable
- Absorbs formaldehyde, purifies air
- Regulates humidity, prevents condensation

Ideal For:

Hospitals, schools, heritage buildings, homes

 Formaldehyde-Free, VOC-Free, APEO-Free, Lead-Free, Mercury-Free

### Download Test Reports

Our claims are backed by certified test reports from reputable institutions.

# STAY COOL. SAVE ENERGY

Designed for tropical climates, ALES Cool Reflect and PAR Heat Reduction Roofcote are high performance coatings that help reduce indoor temperatures by up to 5°C. Whether it's your walls or your roof, our heat-reflective solutions enhance comfort, lower energy usage, and protect your property — all without harmful chemicals.

## ALES COOL REFLECT Solar Reflective Wall Coating

An energy-efficient exterior coating formulated with infrared-reflective pigments to reduce heat absorption and improve building comfort.

- Reflects solar radiation to reduce heat absorption
- Lowers indoor temperatures by 5°C
- Excellent resistance to algae & fungi
- Complies with Singapore Standard SS 678:2021

Ideal For:

Residential and commercial façades

Formaldehyde-Free, VOC-Free, APEO-Free,  
Lead-Free, Mercury-Free

## PAR HEAT REDUCTION ROOFCOTE Heat Reflective Roof Coating

Roofing paint built for high heat resistance and weather protection.

- Reflects solar radiation to reduce heat absorption
- Lowers indoor temperatures by 5°C
- Protects and extends the lifespan of roof surfaces

Ideal For:

Residential and commercial rooftops

Formaldehyde-Free, VOC-Free, APEO-Free,  
Lead-Free, Mercury-Free

*From mosquito-repelling protection to anti bacterial finishes, Kansai Paint delivers smarter coatings designed for healthier living environments.*

## Health-Focused Innovation. Invisible Protection. Visible Peace of Mind.

### ALES SILK NANO+ Anti Bacterial Paint

Premium interior wall finish with a silky touch and long-lasting beauty. Engineered with Nano Silver Technology for effortless maintenance and enhanced protection.

#### Why Nano Silver?

- Kills bacteria & harmful germs
- Works 24/7, long-lasting protection
- Tiny nano particles = stronger effect
- Non-toxic & safe for humans and pets
- Trusted used in medical & home appliances

#### Ideal For:

Homes, hotels and hospitality spaces,  
Healthcare facilities, educational institutions,  
commercial interiors

 Formaldehyde-Free, VOC-Free,  
APEO-Free, Lead-Free, Mercury-Free

### ALES ANTI-MOSQ Mosquito Repellent Paint

Formulated with mosquito-repellent technology, ALES Anti-MosQ provides long-lasting beauty and enhanced protection for indoor environments.

- Repels mosquitoes for added indoor protection
- Stain-resistant and easy to clean
- Durable and long-lasting
- Washable surface
- Excellent colour retention

#### Ideal For:

Bedrooms, homes near gardens or water bodies,  
properties in high-risk dengue zones, schools,  
childcare centers, elderly care, and healthcare  
facilities

 Formaldehyde-Free, VOC-Free,  
APEO-Free, Lead-Free, Mercury-Free

# Gentle on the Environment. Tough on Performance.

Kansai Paint offers a comprehensive range of protective and performance coatings that are water-based and eco-friendly. Our solutions are carefully engineered to provide lasting durability, enhanced safety, and environmental responsibility — all without compromising on performance.

## WATERBASED SPORT FLOORING

Anti-skid Sport Flooring

A single-component, water-based acrylic coating engineered for high durability, safety, and ease of use on both indoor and outdoor sports surfaces.

- Water-based and safe
- Non-skid and non-reflective surface for better playability
- Weather & UV Resistance – Resist UV degradation
- Fast drying – touch dry in 30 minutes, recoat in 2 hours
- Excellent adhesion to various substrates

### Ideal For:

- Badminton, basketball, tennis, futsal and sepak takraw courts
- Multi-sport facilities (indoor and outdoor)
- Multipurpose halls, recreation centers and gyms
- Schools, universities and training facilities
- Government and community sports complexes

 Formaldehyde-Free, VOC-Free, APEO-Free,  
Lead-Free, Mercury-Free

# WATER-BASED. HIGH PERFORMANCE. TOTAL PROTECTION.

Formaldehyde-Free, VOC-Free, APEO-Free, Lead-Free, Mercury-Free

## ALES HYDRO H2O GLOSS

### Premium water-based gloss for wood and metal

Combines an eco-friendly formulation with high performance, delivering a smooth, long-lasting gloss finish on surfaces such as wood, metal, and masonry, while maintaining low odour and minimal environmental impact.

- Excellent fungal & algae growth resistance
- Easy application and fast drying
- Good alkaline resistance
- Good washability, easy wash up in water
- Non yellowing

Ideal For:

- Interior & exterior woodwork and trims
- Metal surfaces such as railings, grilles, and doors
- Schools, hospitals, and ventilation-sensitive enclosed spaces

## ALES HIGH PERFORMANCE WATERPROOFING

### Durable Waterproofing with Water-Based Innovation

A high-performance, liquid-applied waterproofing coating formulated with advanced acrylic emulsion. It offers long-lasting protection against water and weather, with flexible crack-bridging capability.

- Elastomeric flexibility for crack-bridging
- High elongation and tensile strength
- Non-sagging (thixotropic) for vertical surfaces
- Resistant to UV, alkali, and fungus
- Breathable film with water vapour permeability
- Excellent adhesion and easy application

Ideal For:

Roof slabs, vertical masonry walls with hairline cracks, façades, podium decks, gutters, balconies, metal roofs, and both internal and external waterproofing zones.

# Enrich Lives with Happiness through Green Coatings and a Sustainable Future

Founded in 1918, Kansai Paint is a Top 10 global coatings manufacturer with a strong presence in over 43 countries and more than a century of innovation, reliability, and quality. We are a trusted partner across five core segments: Decorative, Automotive, Industrial, Protective, and Marine Coatings - offering high performance solutions tailored to diverse industries and environments.

With over 65 years in Malaysia, Kansai Paint has become a recognized and respected name in the market. From beautifying homes and protecting vital infrastructure to delivering OEM finishes for leading automotive brands, we take pride in offering solutions that meet both everyday needs and complex technical demands — all backed by Japanese R&D excellence and global best practices.

## OUR ESG COMMITMENT

We believe coatings should do more than protect, they should contribute to a better future. Our sustainability initiatives focus on:

- Reducing carbon emissions across the product lifecycle
- Advancing water-based and low-VOC technologies
- Supporting circular resource use
- Promoting diversity, safety, and quality of life for all stakeholders

## OUR VISION: ENRICH LIVES WITH HAPPINESS

We strive to create value beyond coatings - delivering beauty, functionality, and environmental care to every surface we touch.

### Our Business Domains Touching on Increasingly Diverse Aspects of People's Everyday Lives

Paints and coatings are a familiar part of our lives. Applying paints and coatings makes things last longer and helps protect people from heat, viruses, and other threats, while beautiful colors enrich our world. In these and other ways, we seek to enrich people's lives.
