

CPD SEMINAR AT PAM SABAH CHAPTER

Venue : PAM Sabah Chapter

Date : 22nd June 2024, Saturday

Title : Enhancing Architectural Designs
With Innovative Paint Solutions

Enhancing Architectural Designs with Innovative Paint Solutions.

On 22nd June 2024, PAM Sabah Chapter, in collaboration with Kansai Paint Pacific, hosted an insightful technical talk titled "Enhancing Architectural Designs with Innovative Paint Solutions". The event saw participation from 40 architect members.

The session featured expert presentations by Ms. Khiew Wei Yi, Senior Sales and Marketing Manager, and Mr. Mohd Adli Bin Ismail, Protective Coating Manager, both from Kansai Paint Pacific Sdn Bhd. Attendees explored cutting-edge advancements in paint technology and their transformative impact on architectural designs, gaining valuable insights into how innovative paint solutions can elevate their projects.

In this technical talk, we will explore cutting-edge advancements in paint technology and their transformative impact on architectural designs. The session will cover three key topics:

Innovative Paint Technologies

- **Enhanced Durability and Self-Cleaning Properties:** Learn about technologies that extend the lifespan of painted surfaces while reducing maintenance requirements.
- **Anti-Microbial and Anti-Viral Paints:** Discover the health and hygiene benefits of these innovative paints, especially crucial in healthcare settings and heritage buildings.
- **Heavy Duty Protective Coatings for Industrial and Oil & Gas:** Explore specialized coatings designed to withstand the harsh conditions of industrial environments, ensuring long-lasting protection and performance.

Surface Preparation and Application Techniques

- **Importance of Proper Surface Preparation:** Understand why thorough surface preparation is essential for achieving the best results with any paint application.
- **Advanced Application Techniques for Optimal Results:** Gain insights into modern application methods that ensure a flawless finish and enhance the durability of the paint.

Maintenance and Longevity

- **Tips for Maintaining Painted Surfaces:** Learn practical tips for maintaining the aesthetic and functional qualities of painted surfaces over time.
- **How to Extend the Life of Paint Jobs Through Proper Care:** Discover strategies for prolonging the lifespan of paint applications, minimizing the need for frequent repaints and reducing overall costs.

Join us to uncover how innovative paint solutions can elevate your architectural projects, ensuring both beauty and durability.
